

ATTENTION DRIVERS: ENBRIDGE PIPELINE MAINTENANCE IS UNDERWAY IN YOUR AREA

Lake Lorraine Road
Closure north of
Delevan, Wis
**BEGINNING NOV 1–
MID-NOVEMBER**

State Highway 14
Closure south of
Delevan, Wis
**BEGINNING NOV 7–
LATE NOVEMBER**

Enbridge Energy operates the world's longest liquid petroleum pipeline system, which transports North American petroleum to and through Wisconsin to Midwest refineries and beyond. As part of our ongoing integrity program, pipeline crews will be working on our pipeline system in your area, which will result in temporary road closures.

Detours for these road closures have been established. Each closure is expected to last about two weeks.

Please use caution when driving near areas of pipeline maintenance. Watch for flaggers, construction signs, and slow traffic. Our first priority is to protect communities along our pipeline route and our employees and contractors.

We appreciate your patience during pipeline maintenance activities and apologize for any inconveniences.

Thank you. Your safety is important to us.
