## To Our Valued Customers

*The State of Wisconsin requires licensed waste haulers to notify their customers annually of recycling laws.*

*This is a reminder that state and local recycling laws require everyone in Wisconsin to recycle newspaper, office paper, magazines, and cardboard. Also glass, plastic, tin and aluminum containers, tires, yard waste, appliances, motor oil, and electronics.*

*\* You can call our office for more information, or visit:*

<http://dnr.wi.gov/org/aw/wm/recycle/reference.html>.

***Thank you  
for your compliance  
with these state laws.***

## Recycling Materials & Preparation

***The following guidelines should be used when preparing your recyclables for collection:***

-  **Mixed Paper:** Mixed paper includes newspapers, magazines, catalogs, phone books, books, file folders, notebooks, construction paper, box-board (cereal, chip, cake and cookie boxes) and junk mail. Be sure to remove any plastic or cellophane inserts that may be in cereal boxes, etc. All mixed paper should be placed in a separate brown paper grocery bag. The bags are also recycled.
-  **Corrugated Cardboard:** Remove liners; No wax or plastic coated cardboard; Collapse boxes and put under your 18-gallon recycling bin.
-  **Aluminum & Metal Cans, Glass Bottles and Plastic:** Remove all tops and rinse clean. Place loose in your 18-gallon recycling bin. We recycle all plastic with a recycle symbol. (Except oil bottles and styrofoam.)
-  **Electronics:** Additional Recycle Fee applies. Televisions, Computers (Desktop, Netbook & Tablets). Printers, Monitors, DVD Players, VCR's, Etc. Fax Machines, Cell Phones, Computer Accessories (Keyboards, Mice, Speakers, Etc.).
-  **Oil Filters and Oil Dry:** Put oil filters in plastic bag. Set in recycle bin.
